

ÜFORIA

BEING Ü NEVER FELT BETTER!

PRELAUNCH Q&A

1

Q: Can my significant other share her ÜTRITION with me?

A: No. Unless you want to start looking like her! (*Joke*). The answer is still no. This explains why Ütrition cannot be sold on Amazon. Each Ütrition formula is inspired by DNA tests.

2

Q: Are the ÜFORIA products designed to cure diseases?

A: Absolutely not. We adhere to our language of "ImmÜnetics". The definition we have given for ImmÜnetics is "the body will perform miracles by the minute when given the proper raw materials. The ignorant may ask what this product will do for their body while the wise will anticipate what their body will do with this product." Making medical claims will not be tolerated. We recommend Ütrition for the rest of your life in conjunction with a healthy diet and moderate exercise.

3

Q: Should I take my current supplements with Ütrition?

A: To maximize the benefits of your Ütrition experience, we recommend a streamlined approach. As with any area regarding physical health if you have a medical condition, always consult your physician. Ütrition is not designed to diagnose or replace prescription medications.

4

Q: What is PREtrition for?

A: Picture it as concentrated raw food/herbs. After your DNA test results are established the ÜFORIA intellectual software is "pairing" you to your Ütrition. During that 2-4 weeks, PREtrition is a formula to prep your body for your very own Ütrition.

5

Q: Are there any special, or allergen considerations for PREtrition and Ütrition?

A: These products do not contain wheat, yeast, soy, gluten, eggs, dairy, artificial colors, flavors or sugars. Suitable for vegetarians.

6

Q: Can Pregnant or Nursing mothers take these products?

A: As written on the label, if you are pregnant, lactating, or taking prescribed medications, consult your health practitioner before using.

7

Q: How many possible combination of Ütrition are there?

A: Approaching four hundred million.

13

Q: What is in PREtrition?

A: PREtrition are veggie capsules with powerful raw nutrition for you. Some highlighted ingredients are AC11, Frankincense, Astaxanthin, and prebiotics among many other high-quality ingredients such as: Fructooligosaccharides, Organic flax seed powder, Acerola powder extract, White tea extract, Apple extract, Rosemary extract, Vitamin E, Mixed Carotenes, Strawberry juice powder, Raspberry juice powder, Blueberry juice powder, Cranberry juice powder, Spinach juice powder, Tomato juice powder, Beetroot juice powder, Carrot juice powder, Broccoli juice powder, Acai juice powder, Mangosteen extract, Wolfberry Goji Berry extract, Vitamin B3, Zinc, Biotin, Enzyme Blend, Vitamin B5, Vitamin B2, Vitamin A, Vitamin B1, Vitamin B12, Vitamin B6, Folate.

BEING Ü NEVER FELT BETTER!

8

Q: Are there any preservatives, binders or fillers in my Ütrition?

A: No. Only raw foods, herbs, plus vitamins and minerals.

9

Q: Do medications or medical conditions affect the DNA test?

A: No.

10

Q: What's the quality of the ingredients?

A: Our standards are clean, organic, wild crafted whenever and wherever possible. All ingredients are supplied to USP standards and are manufactured in a plant that follows cGMP and registered with the FDA as a food manufacturer.

11

Q: What is a SNP?

A: (*Pronounced "snips"*) A Single Nucleotide Polymorphism. Are the most common type of genetic variation among people. Each SNP represents a substitution of a single DNA building block, called a nucleotide.

12

Q: Can I use company's trademarked names for URLs or Social Media pages?

A: To keep the ÜFORIA opportunity timelessly equal, it's not permitted to use any product names or trademarks for URLs or Social Media pages/Channels/titles.

14

Q: What are potential ingredients for the Ütrition formulas?

A: In addition to the ingredients found on PREtrition, these are some of the ingredients that could be used for the Ütrition formulas depending on the DNA results: AC11, Alpha Lipoic Acid, Astaxanthin, Artichoke extract, Astragalus Root, Bilberry extract, Broccoli sprout extract, Burdock Root, Choline Bitartrate, Citric Bioflavonoids, Dong Quai, Fermented papaya, folate, Frankincense, Garlic, Ginko Biloba, Gotu kola, Grape Seed Extract, Grape Skin Extract, Green tea extract, Kaempferia parviflora extract, Kale, Kiwifruit, Maitake Mushroom, Milk thistle extract, Organic Black Currant extract, Organic Blueberry extract, Organic Reishi Mushroom extract, Organic Shitake Mushroom extract, Pomegranate extract, Probiotics, Quatrafolic, Quercetin, Resveratrol, S Acetyl Glutathione as EMOTHION, Schizandra Berry, Selenium, Spirulina, Tomato, Trimethylglycine, Turmeric extract, Ubiquinol, Ubiquinone, Vitamin B12, Vitamin B2, Vitamin B3, Vitamin B6, Vitamin E, White Tea Extract, Zinc

18 SNPS

ÜFORIA 

15

Q: What are the 18 SNPS that are tested in the laboratory?

A:

- | | | | |
|----|---|----|---|
| 01 | ApoB Gene
(Apolipoprotein B) | 13 | OGG1 Gene
(8-oxoguanine DNA glycosylase-1) |
| 02 | CYP11B2 Gene
(Aldosterone Synthase) | 14 | PON1 Gene
(Paraoxonase-1) |
| 03 | EPHX Gene
(Microsomal Epoxide Hydrolase) | 15 | SOD2Gene (rs4880)
(Manganese Superoxide Disumtase) |
| 04 | GPX1 Gene (rs11549656)
(Glutathione Peroxidase 1) | 16 | SOD2Gene (rs1141718)
(Manganese Superoxide Disumtase) |
| 05 | GPX1 Gene (rs1050450)
(Glutathione Peroxidase 1) | 17 | TNFA Gene
(Tumor Necrosis Factor-alpha) |
| 06 | GSTP1 Gene
(Glutathione S-transferase P1) | 18 | VDR Gene
(Vitamin D Receptor) |
| 07 | MMP1 Gene
(Matrix Metalloproteinase) | | |
| 08 | MMP9 Gene
(Matrix Metalloproteinase 9) | | |
| 09 | MTHFR Gene (rs1801133)
(Methylene Tetrahydrofolate Reductase) | | |
| 10 | MTHFR Gene (rs1801131)
(Methylene Tetrahydrofolate Reductase) | | |
| 11 | MTT R Gene
(Methionine Synthase Reductase) | | |
| 12 | NQ01 Gene
(Coenzyme Q10 Reductase) | | |
